

CHLORASCRUB™

The Practical and Precise Skin Antiseptic

SWAB

SWABSTICK

MAXI SWABSTICK

Chlorascrub™, the first and only 3.15% Chlorhexidine Gluconate (w/v) and 70% Isopropyl Alcohol (v/v) skin antiseptic that is suitable for protocols demanding strict surgery-level skin antisepsis** and pre-injection skin preparation.

Swab - 1.0 mL

- Preinjection skin preparation
- Achieves $>2 \log_{10}$ in 30 seconds and maintains $2 \log_{10}$ bacterial reduction for at least 24 hours
- Easy-to-use prep pad design covers a 2.5 x 2.5 square inch treatment area

Swabstick - 1.6 mL

- Preoperative and preinjection skin preparation
- Achieves $>3 \log_{10}$ in label directions and maintains a $>3 \log_{10}$ bacterial reduction
- Achieves a mean $1.5 \log_{10}$ reduction from baseline at 7 days after a single application when used per label instructions
- Square, flat-shaped applicator design allows for better skin contact particularly in moist skin areas

Maxi Swabstick - 5.1 mL

- Preoperative and preinjection skin preparation
- Achieves $>3 \log_{10}$ in label directions and maintains a $>3 \log_{10}$ bacterial reduction
- Achieves a mean $1.5 \log_{10}$ reduction from baseline at 7 days after a single application when used per label instructions
- Round, flat applicator design for larger area preoperative skin preparation

CHLORASCRUB™ Features and Benefits

- Practical
 - Easy to use, one-step Swab, Swabstick and Maxi Swabstick delivery systems
 - Peel-apart packaging
- Persistent
 - A single application using Swabstick or Maxi Swabstick maintains prolonged antimicrobial activity for 7 days
- Precise
 - 3.15% CHG (w/v) and 70% IPA (v/v) solution provides fast kill time with minimal risk of irritation
- Efficacy
 - Value-added solution guards against pathogens like most bacteria, fungi/yeast and viruses*
- Cost-Effective
 - Effective skin antisepsis can decrease the cost of treatment
- FDA Approved
 - Chlorascrub was approved on June 3, 2005 as a topical antiseptic for the preparation of the skin prior to surgery or injection
 - Approved for inclusion in Kits in 2007
- Dries Quickly
 - Minimizes wait time during procedures
- Natural latex-free
