

# HYGEA®

## Sterile Saline Wipes

*Hygea® Sterile Saline Wipes are an efficient, convenient, one-step alternative to bottled saline and gauze pads.*

### HYGEA® Sterile Saline Wipes Features and Benefits

Hygea® Sterile Saline Wipes help reduce the risk of cross contamination. They are a convenient, cost-effective alternative to bottled saline and gauze pads and deliver a consistent dose of sterile saline with every application.

- Mild and gentle cleansing for even the most fragile skin
- Non-irritating
- Suitable for sensitive skin
- One step easy-to-use application
- Made in the USA to the highest quality standards
- Eliminates cross-contamination and waste of bottled saline solution
- Saturated with 3mL's of sterile saline

**Recommended for:**

- Wound care and wound cleansing
- General skin cleansing
- Cleaning skin after antiseptic application\*
- Newborn eye area cleansing
- Umbilical cord area care
- Cleansing of diaper area
- Dermatitis due to diaper rash

**An essential part of providing care in the NICU**

*"The PDI Sterile Saline Wipes are ready to use and easy to handle with neonates. They are perfectly packaged for wound care and removal of skin antiseptics, and most importantly have a soft applicator which is less abrasive than traditional gauze pads, allowing the product to be used on even the most sensitive and fragile skin."*
