

PDI TOUCHPOINTS™

What's the fastest way to become an expert in Infection Prevention?

Partner with PDI.

From prophylaxis to oral surgery — and every touchpoint in between — we'll provide the expertise and resources your customers need to meet the daily challenges of infection prevention.

With three formulations to choose from, PDI has the right Sani-Cloth® Germicidal Disposable Wipe for all sensitive dental equipment and other high-touch, non-porous surfaces. But we don't stop there. Our commitment includes a dedicated team of Field Representatives and Medical Science Liaisons who educate, train and support you and your customers in infection prevention. PDI's goal is to help your customers achieve and maintain the highest level of infection prevention possible.
