

Protecting Every Touch...

We understand that touchpoints within your facility, both human and inanimate, are all interconnected. So too should the products and solutions you use to address these touchpoints.

During the 2009 H1N1 Influenza pandemic, a Long Term Care Facility measured the benefits of implementing an Infection Prevention Program for Surface Disinfection and Hand Hygiene* using products from Professional Disposables International, Inc. (PDI).

© The results of the 6 month study demonstrated:¹

- *Healthcare-associated infections were reduced from 2.42% to 0.55%*
- *Acute transfers due to infections were reduced from 30 to 8*
- *Antibiotic costs were reduced from \$81,046.50 to \$47,381.10*
- *Employee absenteeism was reduced from 1,349 hours to 792 hours*
- *Zero cases of H1N1 Influenza or any type of influenza occurred*
