

PDI® TOUCHPOINTS™

So many lives are touched by you and your staff each day...

But even as hope and healing are administered, the deadly risk of Healthcare Acquired Infections remains. Without proper infection prevention protocols and compliance, everyday touchpoints — medical equipment, computers, door handles, hands, patients themselves — can contribute to the spread of infectious disease among patients, visitors, caregivers and staff.

From admission to discharge, PDI's goal is to help you achieve zero HAIs by providing products and solutions to address these touchpoints.

Our commitment to you includes our dedicated team of Medical Science Liaisons and Field Representatives to educate, train and support your staff in infection prevention.

In addition, we offer the industry's most trusted and comprehensive portfolio of infection prevention products. From skin antiseptics to surface care, hand hygiene and patient care, PDI® products clean, disinfect or sanitize critical touchpoints throughout your facility.
